

## PRESS RELEASE

### A fresh breeze for Northern Europe

#### **Transfer of Ownership in two RE/MAX regions: Pasi Aalto and Žiuljenas Galeckas are new Regional Directors of Finland and Lithuania.**

The largest European real estate network welcomes two new members: Pasi Aalto is new Regional Director and as a result head of 17 offices and 125 agents in Finland. His new colleague, Žiuljenas Galeckas is the new owner of the RE/MAX master license in Lithuania and in charge of six offices and 67 agents. "I am very happy about the decision of Mr. Aalto and Mr. Galeckas to join RE/MAX as Regional Directors. Their spirit and commitment fits the RE/MAX brand perfectly. I am convinced that they will not only strengthen the RE/MAX brand, but expand their markets", says Michael Polzler, Managing Director of RE/MAX Europe.

Both new Regional Directors see a lot of potential for their regions. Žiuljenas Galeckas underlines particularly the developing stage of the Lithuanian market: "RE/MAX Lithuania has great potential. We are setting new standards in every field of the real estate business and therefore can stay ahead of our competitors." Not only high level standards, but experience is very important in the industry. For Pasi Aalto a main reason to choose RE/MAX.

#### **"In business for yourself, but not by yourself"**

According to this principle RE/MAX offers its network members professional training and education programs, support with marketing and PR activities, IT and other services. "Especially in challenging economic times a strong network like RE/MAX is very important. Service and quality for clients is a decisive factor more than ever before", explains Pasi Aalto. Žiuljenas Galeckas agrees and is looking forward to a bright future with RE/MAX: "My goal is to grow and enhance the RE/MAX brand in Lithuania. With excellent customer service and continuous improvement of our already high standards I am very sure that we are on the right way."
